

Ufa City Clinical Hospital No.21
Clinical laboratory

Report No.8910 of the molecular
biological study by polymerase
chain reaction

Patient:

SHAPTIEVA ALSU

Date of Birth: 25.10.1981

Passport: 75 7831527

Department: Bacteriological laboratory

Clinical diagnosis: examination Studies of a smear from the
pharynx, nose

The result of the study:

COVID-19 PCR testing results

SARS-CoV2 RNA – NOT DETECTED

No.8910 production No.1

Date and time of biomaterial sampling:

12.07.2021 10:00

Result ready date and time:

12.07.2021 15:10

Signature:

Report No.8911 of the molecular
biological study by polymerase
chain reaction

Patient:

SHAPTIEV ISKANDER

Date of Birth: 20.10.2004

Passport: 75 7454636

Department: Bacteriological laboratory

Clinical diagnosis: examination Studies of a smear from the
pharynx, nose

The result of the study:

COVID-19 PCR testing results

SARS-CoV2 RNA – NOT DETECTED

No.8911 production No.1

Date and time of biomaterial sampling:

12.07.2021 10:00

Result ready date and time:

Report No.7938 of the molecular
biological study by polymerase
chain reaction

Patient:

MATIUSHIN VADIM

Date of Birth: 29.03.1980

Passport: 76 3590974

Department: Bacteriological laboratory

Clinical diagnosis: examination Studies of a smear from the
pharynx, nose

The result of the study:

COVID-19 PCR testing results

SARS-CoV2 RNA – NOT DETECTED

No.7938 production No.2

Date and time of biomaterial sampling:

09.07.2021 10:00

Result ready date and time:

09.07.2021 15:30
